# **IIT-M Research Park report on** reversing chronic metabolic diseases

Indian Institute of Technology Madras Research Park (IITMRP) today released the findings of the Evaluation Report of Twin Health's treatment program for reversing Chronic metabolic disease including Type 2 Diabetes. The technology evaluation report will help assess the effectiveness of treatment methodology, which aims to reverse chronic metabolic diseases, particularly Type 2 Diabetes, empowering patients with a medication free recovery.

As part of the report launch, IITMRP also hosted a panel discussion on 'Application of AI technology in treatment of Chronic Diseases' where panelists shared perspectives from industry, academia and the insurance sector. Prof. Mohanasankar Sivaprakasam (Vice President, IIITMRP), Padma Shri Dr. Shashank R. Joshi (Consultant Endocrine & Metabolic Physician, Lilavati

Over 50% of Twin Precision Treatment patients achieved normal Systolic and Diastolic Blood Pressure levels within 3 months.

Transformation from red/orange food to green food over a 1-year period found to be effective for patients who showed engagement and adherence to the Twin Program

Remarking on the treatment methodology, Prof. Ashok Jhunjhunwala, President, IITM Research Park said, "Twin Health is a unique company at IITM Research Park. It promises reversal of diabetes, (reversal rather than control) and it does it without any medicines. It is somewhat like nature control. It helps telling you whether the food you ate today helps or hurts your sugar level.

It advises that you temporarily stop taking red food which is hurting your body, just take the green food which helps your body. Overtime the body will heal and one by one the red food will
